

PROFILE

GERALDINE CHAPMAN

CHIEF OPERATING OFFICER
MIA, MICPA, FCCA, SCTP ATA

When it comes to accounting, Geraldine understands that it's about meeting your needs as a client, as much as it is about fulfilling your compliance obligations. While Geraldine is a qualified Chartered Accountant with a solid background in accounting, her primary role at CST is in managing the firm. She keeps everything running smoothly so that we can provide a timely, effective service to you.

PROFESSIONAL BACKGROUND

For more than a decade, Geraldine has worked in boutique and mid-tier accounting firms, providing Business Services and Taxation support to a broad range of clients.

As an expat herself, Geraldine is also no stranger to the process of relocating overseas.

CST CHIEF OPERATING OFFICER

Geraldine has been working at CST since 2014. During this time she has been instrumental in bringing the firm through the unique issues faced by an international taxation specialist accounting practice during the COVID-19 lock-downs and travel restrictions.

As an accountant herself, with extensive experience in mid-tier and boutique firms, her underlying knowledge of tax and accounting work is an invaluable asset to her ability to manage the needs of the firm.

PERSONAL BACKGROUND

Geraldine jokes that she finds fulfilment by moonlighting as an events coordinator and an executive assistant to a very busy 5 year old. This voluntary work is the result of being married with a beautiful daughter who keeps her on her toes. In her spare time Geraldine enjoys a vast array of activities, including archery, embroidery, and video games.
